Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Context API

Data & State Management: TanStack Query (React Query), REST APIs

Styling & UI: Tailwind CSS, Material UI, Ant Design, Bootstrap, BEM

React Concepts: Hooks (useState, useEffect, useMemo, useCallback), SPA Architecture

Tools & Platforms: Git, GitHub, Vercel, Vite

UX/UI & Design: Figma, Adobe Photoshop

Other: i18n (internationalization), Responsive & Adaptive Design

Work Experience

Front-End Developer (Freelance)

KWORK & other freelance platforms

Aug 2022 – Present

Developed modern, responsive web applications including landing pages, Single-Page Applications (SPAs), and small e-commerce projects.

Key tasks and achievements:

- Built fully functional SPAs using React, Vite, and Next.js
- Implemented client-side routing with React Router without page reloads
- Managed global application state using Redux Toolkit and Context API
- Managed server-side state and asynchronous data using TanStack Query (React Query), including caching, refetching, and synchronization
- Integrated REST APIs using Axios and Fetch (used mock APIs when backend was unavailable)
- Applied React Hooks: useState, useEffect, useMemo, useCallback
- Implemented internationalization (i18n) for multi-language support
- Designed responsive and accessible UI using Material UI, Ant Design, Bootstrap, Tailwind CSS

- Improved performance and code maintainability through reusable components
-

Intern / Junior Web Developer

Payotto Technologies

Jan 2022 – Jan 2023

Worked collaboratively on multiple web projects in a team environment.

Responsibilities:

- Developed responsive layouts using Bootstrap and custom CSS
 - Added interactivity and business logic with JavaScript
 - Worked with PHP and MySQL for data retrieval and updates
 - Implemented form handling and backend–frontend integration
 - Updated and managed website content via WordPress admin panel
-

Education & Certifications

Master's Degree in Economics

Vanadzor State Pedagogical Institute

1998 – 2003

Specialization: Economics Education

Frontend Masters – Level Up React 19

May 2025 – September 2025

Topics: JavaScript (ES6+), typescript, React 19, Next.js, Redux Toolkit, Prisma, PostgreSQL

React JS Course – Mehryan Foundation

Feb 2024 – Apr 2025

Topics: JavaScript, React, JSX, Hooks, React Router, Vite, APIs (Axios, Fetch), JWT, Redux, Jest

Web Development Bootcamp – Armenia Workforce Development Program (USAID)

Feb 2022 – Apr 2022

Topics: HTML, CSS, Bootstrap, JavaScript basics, Git, GitHub

Languages

- Armenian — Native
